The "Bochum Underground Space Day" is organized by the Research Department "Subsurface Modeling and Engineering" (RD SME) as an annual workshop to exchange results of pertinent research and to foster cooperation within the RD as well as with external research institutions and companies.

This year the workshop will be devoted to the general topic “Subsurface and Energy”. It starts with two invited keynote lectures, followed by presentations from external institutions and members of the RD. During lunch break there will be a poster session open for all members of the RD to share their recent research.

After the workshop, a General Assembly of the RD SME will be held.

**WORKSHOP PROGRAM**  –  **OCTOBER 10TH 2017 – 10:00 - 16:30**

- **10:00**  
  Welcome
